SOFT SKILLS

OBJECTIVE

I am a Software technology major at Duy Tan University, I have been passionate about programming since high school, and I decided to major in Software technology at Duy Tan University. During my university studies to further enhance my knowledge and skills, I enrolled in a website programming course with PHP and MySQL at the iViettech programming training center. Throughout my studies, I had the opportunity to participate in real projects that not only helped me gain practical experience but also allowed me to improve my skills.

I'm looking forward to joining your company as an intern in Backend development. I am committed to continuous learning, acquiring new skills, and gaining additional experience to contribute to the growth and development of the company.
