**Database:** MySQL.

**Main functions:** Login & logout, Jwt authentication & authorization, Send SMS, Send mail, Verify account registration, Forgot password, Create jobs, Selecting candidates and recruiting, Cancel recruitment application, Manage (Recruitment application, Recruitment post, Grant permissions to users).

**Source code:** <https://github.com/CL7-Zone/Booking-Labors>

### HOTEL BOOKING ONLINE - HOTELIER

📅 08/2023 - 09/2023 📍 IVIETTECH

Member: 2

**Description:** My online hotel booking application project aims to provide users with the best experience, allowing them to conveniently and swiftly make hotel reservations.

**Programming languages:** PHP, Javascript.

**The technology used:** Laravel 10.10, Bootstrap 5.

**Database:** MySQL.

**Main functions:** Login & logout, Authentication & authorization, Set up rooms, VNPay Payment, Cancel the booking, Grant permissions to users, Send an email to the customer, Manage (Hotels, Rooms, Customers, Bookings).

**Source code:** <https://github.com/tuongclearlove7/Hotelier-Project>

### SMART CHAT APPLICATION - WEBCHAT

📅 2023

Member: 1

**Description:** An intelligent chatbot can be used on Facebook and the website for real-time conversations.

**Programming Language:** Javascript (Node JS).

**Technologies used:** Socket.io 4.6.1, Express 4.18.2, React 18.2.0, Bootstrap 5.

**Database:** MongoDB cloud.

**Main functions:** Login & logout, Jwt authentication & authorization, Chat in real-time, Chatbot on Facebook, Send an email to the user.

**Link demo:** <https://webchat-react-app1.vercel.app/>

**Source code BE:** <https://github.com/alison16smotthie/Web-chat>

**Source code FE:** <https://github.com/tuongclearlove7/MyprojectReactApp1>

## OBJECTIVE

I am a Software technology major at Duy Tan University, I have been passionate about programming since high school, and I decided to major in Software technology at Duy Tan University. During my university studies to further enhance my knowledge and skills, I enrolled in a website programming course with PHP and MySQL at the iViettech programming training center. Throughout my studies, I had the opportunity to participate in real projects that not only helped me gain practical experience but also allowed me to improve my skills.

I'm looking forward to joining your company as an intern in Backend development. I am committed to continuous learning, acquiring new skills, and gaining additional experience to contribute to the growth and development of the company.

## SKILLS

### WEB DEVELOPER

Have basic skills in:

Technologies:

Spring boot

Laravel

React JS

Node JS

Express JS

Socket.io

Bootstrap

Jwt

Databases:

MongoDB cloud

MySQL

SQLServer

Software architecture patterns:

RESTFUL API

OOP

MVC

Other:

API Integration

Deploy to Railway, Vercel

phpMyAdmin

Git

## PROGRAMMING LANGUAGES

PHP, JAVA, JAVASCRIPT, HTML, CSS.
